The presentations focused on the history of decisions made, the alternative management options explored, the Kodiak Island Borough's (KIB) inability to continue to accept biosolids at the landfill, and the series of decisions made as a result of KIB's decision. The City Manager requested direction from the Council on what short- and long-term options to take in order to reach a final decision on the best and most affordable biosolids management method.

g. Authorization of Trident Basin Development Quarry, Borrow Material Permit No. 13-4

The Trident Basin Float Plane facility is growing and continues to need additional area for facility parking and staging adjacent to the Andrew Air facility. It has been the City's goal to eventually provide the area needed, but it has also been understood that significant rock removal would be required and would likely take years to develop a usable pad area. Anderson Construction has held the Trident Quarry Permit since 2005 but has not actively mined the quarry in recent years. Seeing the lack of activity, Golden Alaska Excavating LLC, another local grading contractor, approached the City about the possibility of taking over the permit from Anderson. City staff met with Mike Anderson to discuss releasing the permit and allowing Golden Excavating to take over the Trident Basin Quarry. Anderson maintains a second quarry permit at the boatyard area and agreed to release the Trident Basin Quarry permit to allow Golden Excavating to move forward.

The total Phase V project was reduced in size due to limited funding. Monashka Reservoir and Pumphouse are the primary sources of water for the City of Kodiak's public water system. The plans for the pumphouse indicate that construction began sometime in 1972. In October 2011 Council approved the Monashka Pump House Upgrade Feasibility Study. The purpose was to evaluate the building and its operational components and determine if the existing building could be upgraded to last another 40-plus years and what it would take to upgrade electrical and pumping systems. The initial work was completed in March 2011. This work recommended further investigation into the building structure itself before a final recommendation could be made. This work was completed in early December 2012. The final investigation found serious deficiencies within the building structure that make it highly unlikely to be refurbished.

Councilmember Whiddon MOVED to authorize an amendment to the Monashka Pumphouse Feasibility Study, Project No. 7029/11-05 to CH2MHill in a lump sum contract amount of \$140,000, with funds coming from Water Capital Improvement Fund, Project No. 7029/1105.

j. Authorization of a Professional Services Contract for Oil Spill Cleanup on City Property

On January 22, 2013, Kodiak Fire Department (KFD) was called about a fuel spill and fuel odor behind 1213 Selief Lane. KFD responded and found a source of fuel in a drainage area behind 1213 Selief Lane on City property. They placed oil absorbent pads and did some preliminary investigation into possible sources. KFD reported the spill to the Alaska Dept. of Environmental Conservation that same day. Since the fuel is on City property and the source has not been located, the City is required to respond to prevent further spreading of the oil into the drainage system. The City contacted NORTECH, a local environmental cleanup company, for support in handling the containment and cleanup.

Councilmember Haines MOVED to authorize the City Manager to execute a professional services agreement with NORTECH for oil spill cleanup on City property in an amount not to exceed \$25,000, with funds coming from the Public Works operational budget.

The roll call vote was Councilmembers Bishop, Davidson, Haines, Saravia, Walker, and Whiddon in favor. The motion passed.

In 2011, the committee was restructured to reduce the committee to eleven seats and allow for a meeting quorum of six members. Oliver Holm, who was previously appointed to the

ADF&G Committee seat, has requested appointment to the Salmon/Herring Vessels seat. At its February 7, 2013, meeting the Borough Assembly approved the vacation of the KFAC ADF&G seat and confirmed Mr. Holm's appointment to the Salmon/Herring Vessels seat. Since KFAC is a joint committee, the City Council needs take the same action if it desires to grant Mr. Holm's request.

Mayor Branson appointed Amy Fogle to an alternate seat on the Parks and Recreation Advisory Board for a term ending December 31, 2013.

Councilmember Davidson MOVED to confirm the Mayoral advisory board appointment to the Parks and Recreation Advisory Board as stated.
