

Kodiak Area Emergency Services Organization

KODIAK, ALASKA, FOR IMMEDIATE RELEASE: December 18, 2020

The Kodiak Emergency Operations Center has been notified of new positive COVID-19 test results within the Kodiak Island Borough.

Five (5) new cases have been reported for the Kodiak Island Borough.

- **Five (5) new cases were tested on 12/17/20**
 - **Two (2) cases are travel related**
 - **Two (2) cases are close contacts of previously reported cases**
 - **One (1) case is considered community transmission**

This brings the current case count associated with the Kodiak Island Borough to seven hundred seventy-one (771); one hundred and eighty-nine (189) cases are classified as active locally.

To date, there have been a total number of thirty-one (31) local hospitalizations and four (4) deaths associated with COVID-19; five (5) patients are currently hospitalized in Kodiak.

As we move into the holiday season, take a moment to consider how you might modify your plans to help keep your friends, family, and fellow community members safe. Be mindful of the people included in your social bubble, limit gatherings to only members of your household if possible, consider small socially-distanced outdoor gatherings, and remember to wear a mask.

DHSS is urging anyone who receives a positive test result to notify their own close contacts as soon as possible so individuals can quarantine without delay. Once notified, close contacts should immediately quarantine and follow CDC guidance for quarantine options.

The COVID-19 virus continues to spread in our community; please take appropriate precautions to keep yourself and our community healthy.
