The Harbor will institute or adjust a deposit for an established customer who becomes delinquent in payment. The amount of any new deposit required will be consistent with the above provisions.

**Section 5 -- Billing and Collection Requirements**

**5.01 Bills based on meter readings**

(a) Except as provided in Section 7.01, charges for energy will be based on the readings of meters installed by the Harbor and read monthly by the Harbor. The Harbor will separately bill for each meter at a customer's location. Readings from two or more meters will not be combined.

(b) It is the Harbor's goal to read every meter monthly. Only when severe weather conditions prevent the meter reading or other circumstances make it dangerous or not feasible it may be delayed.

(c) If the Harbor is unable to read a meter during the scheduled meter reading cycle, consumption will be estimated based upon the customer's usage during the same month of the previous year or the amount of usage during the preceding month or months. Every estimated billing will contain a statement that the billing is based on an estimated meter reading.

---

**CITY OF KODIAK**

---

**5.02 Monthly billings**

The Harbor will bill monthly for services rendered. Charges for service shall commence when the service is installed and energized.

**5.03 Bills due**

Bills are due and payable on the date rendered. Unless personally delivered by the Harbor, a bill is rendered on the billing date.

**5.04 Past due and delinquent bills**

A bill will be considered past due if not paid within 25 days after the date rendered. A bill will be considered delinquent if not paid within 40 days after the date rendered.

**5.05 Application of payments**

Unless otherwise agreed to by both the customer and the Harbor, payments will be applied to amounts owed in the same order as the amounts became due.

**5.06 Late charge**

The Harbor will impose a late charge of 1% of the past due amount until the amount is paid in full.

**5.07 Payment places**

Customers may pay their bills for electric service in person at the Harbor office or by mail.

**5.08 Failure to receive bills**

Failure to receive a bill that has been properly addressed and mailed to the customer does not prevent the bill from becoming past due or delinquent or excuse the customer's responsibility for payment. If a customer does not receive a monthly bill at the time of the month the customer normally receives a bill, the customer should immediately notify the Harbor.

**5.09 Non-sufficient funds checks**

A customer who tenders a non-sufficient funds check is still obligated to pay the Harbor under the original terms of the bill. A fee as set forth in the Schedule of Nonrecurring Charges for additional costs incurred by the Harbor will be charged for all dishonored checks. Any person who has tendered two (2) dishonored checks to the harbor within a twelve-month period may be denied the privilege of paying by personal check.

---

**CITY OF KODIAK**

---

**5.10 Payment in advance**

Customers may pay the Harbor more than the amount due; the Harbor will accept such payments and show the payment as a credit on the next bill.

**5.11 Application by two or more individuals**

If a single application for service is made by two or more individuals together, the Harbor may collect the full amount owed from any one of the applicants.

**5.12 Payment responsibility when disconnection requested**

If a customer requests the Harbor to disconnect service, the customer is still responsible for all services up to the later of the requested disconnection date or three working days after the customer places the request.

**5.13 Not Applicable**

**5.14 Not Applicable**

**5.15 Bills when there are meter errors**

(a) Meter errors involving over-registration

If a meter in service is tested and found to have over-registered the amount of power delivered by more than two percent, the Harbor will recalculate the bills for service from the known date of error and will make a refund or credit for the entire over-registered amount if it exceeds \$5. If the beginning date of error is unknown, the Harbor will refund or credit the most recent customer of record for the billed error for the period since the meter was last tested, not to exceed six months, or the period during which the most recent customer of record received service through the meter, whichever period is less.

(b) Meter errors involving under-registration

If the meter is tested and found to have under-registered the amount of energy or power delivered, the Harbor will not charge the customer for the under billings unless there is evidence of meter tampering by the customer.

**5.16 Make-up bills**

(a) This provision applies to bills that fall into the following categories:

- (1) Service inadvertently not billed as a result of a Harbor billing error; or

---

**CITY OF KODIAK**

---

- (2) Service that was not billed as a result of an estimated billing.
- (b) Make-up bills are subject to the following restrictions.
  - (1) The initial make-up bill must be issued within six months after provision of the previously unbilled service.
  - (2) The period for payment of the make-up bill may, at the option of the customer, extend at least as long as the period during which the excess amount accrued.

**Section 6 -- Disconnection of Service**

**6.01 Causes for disconnection without notice**

The Harbor will disconnect service to a customer without advance written notice for any of the following reasons:

- (1) An immediate hazard exists which threatens the safety or health of the customer or the general population or the Harbor's personnel or facilities.
- (2) The Harbor has evidence of meter tampering or fraud by the customers.
- (3) A customer has failed to comply with curtailment procedures imposed by the Harbor during emergency supply shortages.
- (4) A customer resells electric service.
- (5) When an a transient vessel in hotbunk status requests electricity in a slip assigned to an exclusive vessel that is out of town for an extended period of time. Note: When the exclusive vessel re-occupies the slip, services will be restored at no cost to the exclusive vessel.

**6.02 Causes for disconnection with notice**

The Harbor will commence disconnection procedures in accordance with the notice procedures in Section 6.03 for any of the following reasons.

- (1) A customer has failed to pay for harbor service within 40 days after initial rendering of the bill and the customer has not entered into a deferred payment agreement with the Harbor.
- (2) A customer has failed to meet or maintain the Harbor's deposit requirements.
- (3) A customer has breached a deferred payment agreement.

---

**CITY OF KODIAK**

---

(4) A customer has knowingly and continually failed to provide the Harbor with reasonable access to its meter, equipment, or property.

(5) A customer has breached a special contract between the Harbor and the customer for electric service.

(6) Disconnection is required in order for the Harbor to comply with an order or regulation of a governmental agency with proper jurisdiction.

**6.03 General policy for notice of disconnection**

(a) This provision does not apply to customers being disconnected without notice.

(b) At least 10 days before the scheduled date of disconnection, the Harbor will mail or deliver to the customer a written notice of intent to disconnect service to the address on file with the Harbor. The disconnection notice form will contain all the information required by 3 AAC 52.450(c)(1).

(c) Three working days prior to disconnection, the Harbor will post a notice on the electrical pedestal about to be disconnected and make reasonable attempts to contact the customer by telephone. The Harbor will keep records of all attempted and completed telephone contacts showing at least the time, the person making the attempt, and the outcome. The Shut-Off Notice or completed telephone call will provide the customer with information required by 3 AAC 52.450(c)(3).

(d) Not applicable

**6.04 Not applicable**

**6.05 Not applicable**

**6.06 Not applicable**

**6.07 Limitations on harbor-initiated disconnections**

(a) Time period limitations

Within 3 days after the date specified on a Shut-Off Notice, the Harbor may, without further notice, disconnect service to a customer.

(b) Limitations on reasons for disconnection

(1) The Harbor will not disconnect service to a customer for delinquency in payment for services rendered to a prior customer except where the prior customer continues to moor

---

**CITY OF KODIAK**

---

in the slip.

(2) The Harbor will not disconnect service to a customer for nonpayment of a bill related to another service at a different service location.

(3) The Harbor will not disconnect service to a customer for failure to pay a disputed amount due on a delinquent account if the customer complies with the rules on customer bill disputes and the dispute remains under investigation by the Harbor or the Alaska Public Utilities Commission. However, the Harbor may proceed to disconnect service in accordance with the above provisions if a customer fails to pay any undisputed amounts.

(4) The Harbor will not disconnect service if the customer is unable to pay the full delinquent amount due, and is in compliance with a signed deferred payment agreement.

**6.08 Removal of harbor property**

The Harbor may remove any or all of its installed property, upon disconnection of service.

**6.09 Restoration of service after disconnection**

The Harbor will restore service within three working days after correction of the conditions that resulted in the disconnection.

**Section 7 -- Technical Provisions and Standards of Service**

**7.01 Meters**

(a) Metering required

The quantity of a customer's electrical energy and/or demand shall be determined by the registration of the electric meters provided by the Harbor, except that:

(1) Where the load is such that the amount of electrical energy consumed is fixed by the type of service, the Harbor may elect not to meter the service and to bill the customer a fixed amount as determined by the charges under the Schedule of Nonrecurring Charges.

(2) Where temporary service is rendered under conditions making metering impractical, the amount of energy consumed may be estimated and billed accordingly.

(b) Meter locations

The Harbor positions the meters so that it is readily and safely accessible to the Harbor

---

**CITY OF KODIAK**

---

for reading, testing, and inspection and causes the least interference and inconvenience to the customer.

(c) Meter testing

At the request of the customer the Harbor will test any meter if the customer agrees to pay the meter testing charge shown in the Schedule of Nonrecurring Charges under the conditions described below.

(1) If the meter is found to over- or under-register by more than two percent and there is no evidence of meter or electric service tampering by the customer, the Harbor will not charge the customer for the meter test.

(2) Otherwise, the Harbor will charge the customer for any meter test performed at the request of the customer. Meter testing charges are shown in the Schedule of Nonrecurring Charges.

**7.02 Protective devices**

It is the customer's responsibility to provide suitable protective devices for the customer's equipment. If three-phase equipment is installed, it is the customer's responsibility to protect such equipment against single-phase operation and under-voltage and over-voltage conditions. Minimum protective devices considered necessary for motor protection are:

(a) Line Starting Protection--Any motor which, in starting, might be damaged by the full line voltage requires some type of protective device to disconnect it from the line during interruptions in service, thus protecting the motor when service is restored. Such a device should also be equipped with a time delay mechanism so that the motor will not be disconnected by momentary fluctuations in voltage.

(b) Overload Protection--Since the intense heat caused by overload may seriously damage the motor, the customer should install a device that will disconnect the motor if overload occurs. Fuses, thermal relays, or circuit breakers which are specifically designed to operate when excessive current occurs are the devices used for this purpose. Where the customer receives three-phase service, such protective devices should be connected in all phases.

(c) Single-Phasing Protection--Where the customer receives three-phase service, a relay should be installed which will disconnect the motor from the lines in the event one phase of the line becomes open.

(d) Reverse-Phasing Protection--For three-phase installations the customer should install relays which will disconnect the motor from the line in the event of phase reversal.

---

**CITY OF KODIAK**

---

**7.03 Inspection**

The customer is responsible for installing and maintaining his/her electrical wiring and equipment in accordance with applicable local, state, and national electric and building codes.

**7.04 Addition of load**

Any customer shall give the Harbor reasonable notice, in writing, of any plans to increase a given load past the capacity of the Harbor's equipment installed. If the additional load damages the Harbor's equipment, the customer is liable for such damages and repairs or replacement of damaged equipment.

**7.05 Undesirable load characteristics**

(a) New service

The Harbor may refuse to establish new service if a condition exists or would exist upon establishment of service which the Harbor believes is unsafe or hazardous to the applicant, a member of the public, the Harbor's personnel or facilities, or the integrity of the Harbor's energy delivery system.

(b) Established service

(1) Disconnection without written notice

The Harbor may disconnect service to a customer without advance written notice if the customer's load causes any of the conditions described in Section 7.04.

(2) Disconnection with written notice

In less serious situations, the Harbor will disconnect service only after delivery of a shut-off notice to the customer's service location specifying the problem and scheduling disconnection 10 days later if the customer has not corrected the situation or otherwise adequately responded to the shut-off notice. Where immediate correction is not possible, the customer's response must include arrangements made for repair or replacement of equipment. A completion date will then be established, and the disconnection will be postponed until the day following the agreed-upon completion date.

**7.06 Unauthorized attachments**

Before an individual or firm attaches any equipment or material to any Harbor property

---

**CITY OF KODIAK**

---

(including pedestals, guy wires, equipment, or structures), the individual or firm must receive written permission from the Harbor. **Any unauthorized attachment is subject to removal at any time without notice.**

**7.07 Inside wiring**

Customers are responsible for the breaker, plug and wiring to their vessel from the service entrance and meter socket equipment.

**Section 8 – Customer requested services**

**8.01 Not applicable**

**8.02 Not applicable**

**8.03 Not applicable**

**8.04 Not applicable**

**8.05 Not applicable**

**8.06 Temporary service**

If an applicant requests that the Harbor construct facilities for the provision of temporary service, the applicant must pay the Harbor the estimated costs of installing and removing the facilities necessary to furnish the desired service. See Schedule of Nonrecurring Charges Sheet 28.

**8.07 Customer requested changes to meters or service**

(a) If a customer request that the Harbor change the meter or service to accommodate the customer, the customer must pay the Harbor for all costs incurred.

(b) Before the Harbor commences to make the requested change(s), the Harbor will provide the customer with an estimate of the costs.

(c) If the actual costs of changing the meter or service are less than the estimated costs, the Harbor will refund the difference to the customer. If actual costs exceed the estimated costs, the customer will be billed for the difference.

**SECTION TWO – COMMODITY RULES, EXPLANATIONS AND RATES**

**ITEM 201**  
**WHARFAGE**

**(A) WHARFAGE DEFINED [C]**

“Wharfage” means the charge for the use of the wharf that is assessed on all freight passing or conveyed over, under, through or onto wharf premises or loaded or discharged overside vessels berthed at wharf or moored in wharf slip. No services are covered by this charge. Unless otherwise provided, wharfage shall be considered earned and will be assessed whether or not freight received on wharf or wharf premises from cargo, trucks, drays or water carriers is eventually loaded on vessel.

Note: This wharfage definition takes precedence over, and is a departure from the Federal Maritime Commission definition prescribed in 46 Code of Federal Regulations, Part 525, Marine Terminal Operator Schedules, reading as follows: “Wharfage means a charge assessed against the cargo or vessel on all cargo passing or conveyed over, onto, or under wharves or between vessels (to or from barge, lighter, or water), when berthed at wharf or when moored in slip adjacent to a wharf. Wharfage is solely the charge for use of a wharf and does not include charges for any other service.

**(B) WHARFAGE ON DIRECT TRANSFER FREIGHT [A]**

Unless otherwise specifically excepted, all freight handled direct between transports and vessels will be subject to full wharfage at the regular rates due according to ship’s manifest and the respective traffic and commodity classifications of the freight.

**(C) EXCEPTIONS [A]**

Ship’s stores and repair materials and supplies, all when intended for vessels’ own use, consumption of repairs, will be exempt from assessment of wharfage unless wharf employees are required to receipt for such supplies or stores as may be received or unloaded on wharf.

**(B) COMPUTING WHARF DEMURRAGE**

In computing either Wharf Demurrage or storage on freight delivered to a vessel, the day or days vessel is loading will not be considered demurrage for storage days. On freight delivered to transports, trucks or drays, the day freight is loaded or delivered will be considered a Demurrage or storage day.

Demurrage will be assessed at a rate per square foot per day, based on the "foot print" occupied by cargo in the laydown area or for cargo with overhangs, the footprint plus the area under the overhang that the overhang renders unusable for other storage. See Wharf Demurrage Rates (below)

**ITEM 205**  
**WHARF DEMURRAGE RATES [A]**

Except as otherwise provided, after expiration of Free Time, as defined in [ITEM 206](#), Wharf Demurrage will be assessed after the allowed Free Time at Piers I and II.
