Kodiak Fire Department Rope Rescue Team Called to Assist Bayside Fire Department with Cliff Rescue

Kodiak Fire's high angle rope rescue team was requested last night by Bayside Fire Department to assist in accessing one individual who had fallen down a 30 foot cliff on Cliffside Drive. The call came in at 11:30pm and when crews arrived they found one severely injured individual stuck on a small shelf half way up the cliff with a bystander assisting him. Kodiak Fire rope rescue team had to set-up a rescue system to lower two firefighters down to the individuals. The injured victim was secured in a stokes basket and then hoisted up to safety. The two firefighters and the bystander quickly followed. The victim was then transported to PKIMC for treatment via ambulance.
