Structure Fire on Willow St.

On Sunday morning, 01 April 2018 at approximately 04:21am the Kodiak Fire Department was dispatched to 814 Willow St for a reported structure fire. Fire crews arrived within 3 minutes to a large 45 x 15 foot structure with heavy smoke and flames showing through the roof and side. Crews initiated an aggressive fire attack which stopped the fire prior to it extending into the residence located 10 feet away. Metal fencing and large piles of material in and around the structure hampered firefighter efforts during the incident.

Neighbors reported a portion of the building was used by an unnamed person as a living space. Once firefighters had the fire under control a search of the building found no one inside. Bayside Fire Department was requested via mutual aid for man power to assist in moving damaged material from the structure. An investigation to determine the cause is underway. There were no reported injuries as a result of the fire.
